

proudly displays short, stocky legs *like Pamela Anderson*
on Baywatch this rubenesque stunner
Sweet, OMG! Put a bow in its hair & send it off to school **dribble down over**
well chiseled structural pillars you can almost
put your tongue through the hole
as demure & alluring as a debutante sipping punch at her
leavers ball **a husky Nigella resplendent in a**
luxurious dressing gown on a lazy Sunday
morning in a gym slip just a little too short like a newborn afflicted
with a nasty case of Slapped Cheek *uplifts in the finish like the*
swish of a tennis skirt during a Sharapova
backhand **will splurge its**
way over your chin struts
its stuff in skimpy briefs like a rugby legend
turned body builder **the kind of emotional force**
on which the Rocky movies were premised

excerpts from winemaker Strat Canning's tasting notes
